FSRD Re-display for Households with Disabled Household Members

On September 4, 2002, a broadcast was sent announcing the FSRD screen enhancements made to accommodate the 2002 Farm Bill increase to the resource limit.

We have completed another FSRD change to further assist you in making accurate food stamp resource determinations for households containing a disabled household member.

After answering the **DISABILITY IN HH? (Y/N)** question, the FSRD re-displays with the following:

- Totals from the input on the resource screens;
- The appropriate limit used to determine resource eligibility for the household;
- A *pass* or *fail* resource message;
- If applicable, the reminder edit **FS FAILS RESOURCE / CHECK FOR SI, AP, AF CLIENTS (S)**, prior to proceeding to the next screen.

**The screen re-displays only when the total resources fall between the regular \$2000 and the SPECAT \$3000 resource limits.**

Updates have been made to the FSRD field and screen on-line help.
